MANUFACTURED BY

WILSON BOHANNAN.

OFFICE AND MANUFACTORY :

Nos. 754 to 776 Lexington Avenue, Brooklyn, N. Y.

1894.

ESTABLISHED 1860.

FIVE MEDALS AWARDED.

INTRODUCTORY.

I TAKE pleasure in placing in the hands of my customers my Catalogue of 1894, illustrating my several lines of Bronze Metal and Hand Made Spring Padlocks; Combination and Key Drawer, Cupboard and Chest Locks; Rim and Mortise Night Latches; Rim and Mortise Store Door Locks, and New Locks which I have added to my well-known line of Locks, which for fine finish, strength and security are unexcelled.

I call special attention to the fact that all of my Locks are hand made, and that all of my Padlocks and Drawer Locks are cast of the best bronze metal; also the interior of all my iron case Locks.

With increased facilities and the routine of my new factory running smoothly, I am prepared to fill orders with the greatest dispatch.

Thanking my customers for their former patronage, it will be my constant effort to merit a continuance of the same.

WILSON BOHANNAN.

BROOKLYN, N. Y., July 1, 1894.

TERMS

Invariably Cash, payable in funds par in New York. Accounts unpaid after thirty days are subject to sight draft.

SHIPMENTS

Made from New York City only. All goods delivered in New York City free of charge.

A moderate charge will be made for packing boxes.

All orders and correspondence by mail will receive prompt attention.

Railroad, Freight Car and Switch Locks made to order to suit any key furnished and a fit guaranteed.

NEW IMPROVED SAFETY LOCK.

The construction of this Lock forms a complete prevention to cutting away the astragal or jamb of a door, and pushing the bolt back with a penknife or other instrument. The catch enters an opening in the case of the Lock with a corrugated flange, which closes up the opening and prevents any instrument being inserted to push the latch bolt back. It also locks double doors together, or the jamb and door together, thus preventing the nosing or catch being pried apart, so as to liberate the latch bolt from the nosing or catch.

PATENTED FEBRUARY 14, 1888.

No. 211—BACK. PLAIN BEVEL BOLT.

For doors from 1¼ to 1¾ inches thick.

Distance from edge of door to centre of keyhole, 2½ inches.
